

**PACIFIC
CONCORD**

PCLNB-A2-030 Series

LED Light Bulbs

Characteristics:

Material technics:

Aviation aluminum of high heat conductivity and patented configuration technics

Lighting source:

Low light attenuation ,low calorie and low power LED (3528) to make sure long lifetime , energy-saving , high efficiency and pro-environment

Equipment set:

Includes driver without reprovision, can be directly connected electricity use

Part Number Series:

PCLNB-A2-030E27, PCLNB-A2-030E14

Application:

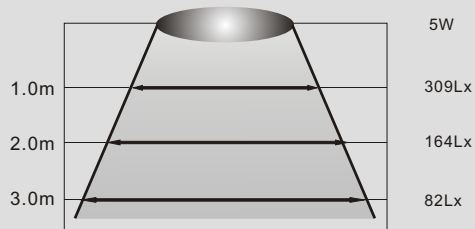

- Office
- Exhibition hall
- Bank
- Supper maker
- Café
- Conference room
- Wash room
- Show room
- Hotel
- Bar and other leisure center
- Shopping mall
- Corridor
- Storehouse
- Store

Specification:

Input voltage:	AC95V~245V	LED source:	SMD LED(3528)
Power:	5W	Color temperature:	3000K, 4000K
Luminous flux:	>300lm	Ambient temperature:	-20℃ ~ 60℃
Beam angle:	≥160°	Life time:	>30,000hours
Ra :	≥80	Material:	Aluminum+Glass
Lamp holder:	E27, E14	Net weight:	5W=100g

Luminance Schematic Diagram:

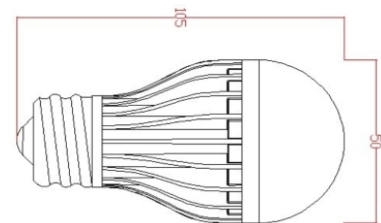

Light(Beam angles:160°;Colour temperature:3000K)
